

Lovell
FOOD RANGE

HEAT SEAL BLISTERS PRODUCT RANGE

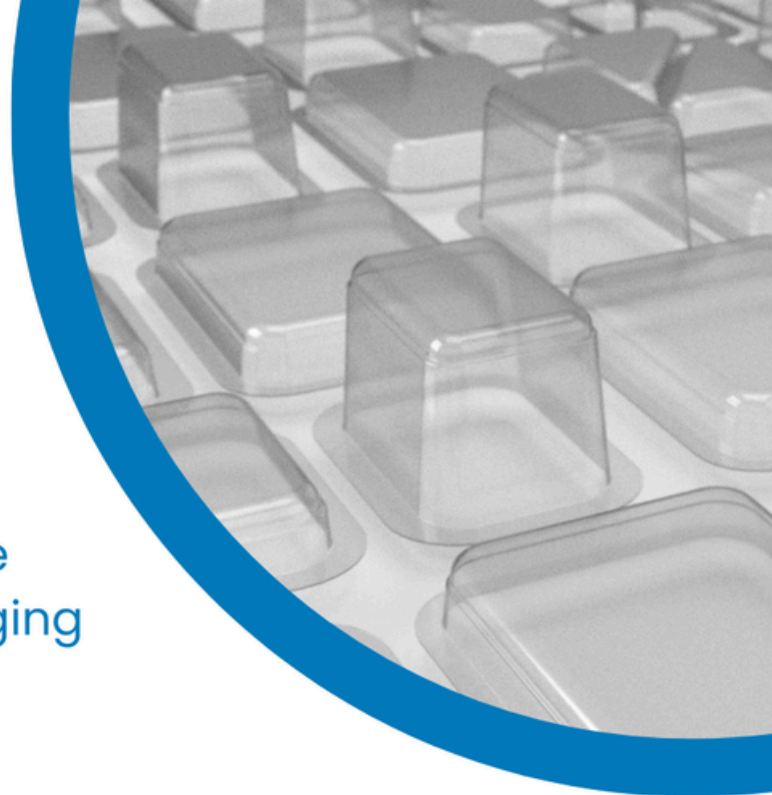

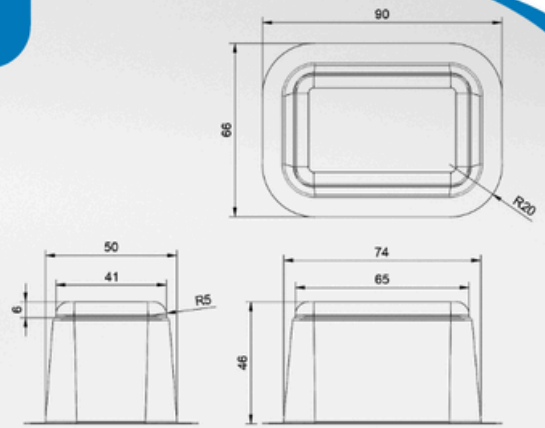

Lovell Industries is one of the best-equipped food packaging and blister packaging manufacturers in Gauteng offering a complete one stop service.

Design, Development & In-house Sampling

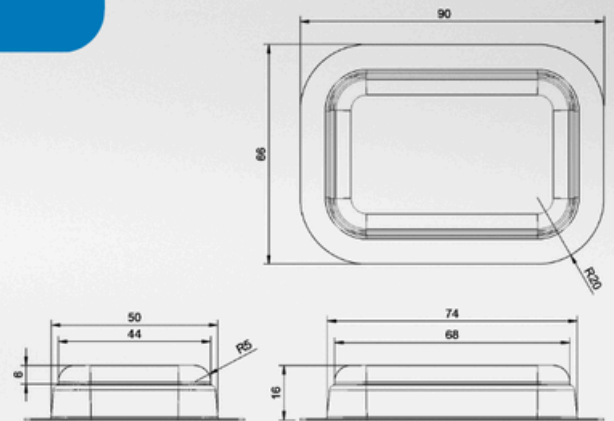

Lovell Industries offers packaging design and development services, with a team ready to design the ideal blister or food packaging concept for your product. Utilising the latest Edgcam Drawing and 3D Rendering Software we aim to set each your product apart from its competitors on the shelf. Full in-house prototyping, mould making capabilities using CNC machinery ensures that we can provide quick turn-around on samples and moulds. Our aim is to provide the best packaging solution and design concept, which is often the most critical step to the overall packaging project. Once the design is done our team will manufacture a prototype to ensure that you are happy with the overall design and fit around your product prior to the final mould making stage. Our one-stop shop process gets you from design to delivery in 3-6 weeks.
